BLOG EXCERPT :

The HKRF has developed a series of analysis tools. Unique to the Hong Kong Racing Form, the Crosses (Pivot Tables) are based on Lifetime History.

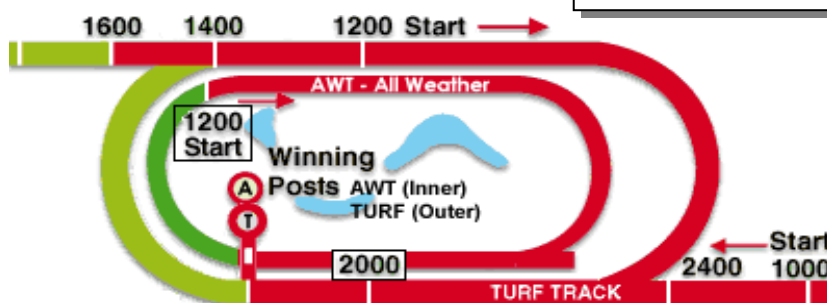

Starting with TODAY's races, the HKRF is providing its **Horse Crosses** as a **FREE Pre-Race Download**. The Horse Crosses profile a horse's lifetime performance with respect to 6 racing factors and present the results in easy-to-read Pivot Tables.

The 6 Racing Factors presented in the Horse Crosses are :
 Track and Distance, Jockey, Rating, Going, Days Between Starts & Body Weight

Here's how they work using the example of a Horse's Body Weight. The Cross for Body Weight shows "today's" body weight and then displays how that horse performed in its history at various weights. You can quickly and easily see if a horse is at its ideal weight or if it is above or below its most productive level. Simple and easy!

Evaluating these 6 factors for each horse should enable you to quickly and easily determine if a horse merits inclusion (or exclusion) in your selections for a specific race. The Horse Crosses assist in evaluating a horse's potential or lack thereof.

If you've got ideas, requests or just want to give us feedback, drop us a line or Comment in our Blog.

RACE OVERVIEW :

Typical Class 5 event with no clear stand-out. In many C5 races those with good gate speed will be hard to run down. NOBLE TWINS, LITTLE BIG BOY, FISHKING EXCELLENT have gate speed & draws to be the major players. ENERGETIC BOY could run them down.

RACE OVERVIEW :

BEAUTY FLASH looks a definite standout but you will not be getting a fair return. TAN TAT BABY went well 7 days ago and should be fitter for that effort. FORTUNE HAVEN, IRON FIST and GRAND DANCER all have place chances.
